Please find attached the copy of the one bid we have received for this project. After review of the bid it is considered responsive and within the original estimate of cost. As mentioned at the Village Board meeting we are taking this directly to the Board of Trustees so the work can be done yet this fall in the timeframe outlined by the DNR.

Village staff is therefore recommending the approval of the Applied Ecological Services, Inc bid of \$99,826.00 and authorizing the Village Manager to execute all the appropriate documents.

If you have any questions please feel free to contact me.
