Memo

To: Plan Commission
Cc: Tom Harrigan, Village Manager
From: Ethan Sowl, Assistant Village Manager / Zoning & Planning Administrator
Date: February 24, 2026
Re: Plan Commission Meeting Memorandum

1. Review of Short-Term Rental Conditional Use Permit for Zaha Properties The Groves LLC, 545 Elm Grove Rd Unit #2

Zaha Properties was issued a conditional use permit (CUP) to operate a short-term rental (STR) on March 25, 2025 by the Board of Trustees. Village Ordinance § 335-86I(4)(b) specifies that the Plan Commission shall review such CUPs on an annual basis to ensure compliance with ordinance standards.

Kala and Jacob Zornow, owners of the property and operators of the STR, have filed to renew for another 365-day period. The Zornow's will be in attendance to answer any questions.

The Zornow's have been made aware of the Village's recent amendments to the STR Ordinance (2025-03) and that they must comply with them at their renewal.

Action Requested: No formal action is required. Village Ordinance prescribes a check-in. If desired, ask any questions of the Zornow's.

2. Review and act on a revised Plan of Operation for Elm Grove Burger, LLC (D/B/A Culver's), 15280 W Bluemound Rd, for a drive-thru expansion

Culver's is requesting to convert their single land drive-thru to a double-land drive-thru. The proposed work includes slight curb and gutter modifications, pavement restoration, and the addition of menu boards and other drive-thru signage.

Staff determined that the proposed improvements warrant an amended plan of operation by the Plan Commission.

Action Requested: Motion to approve or deny a revised plan of operation for Elm Grove Burger, LLC.

3. Review and act on Ordinance 2026-05 to rezone an approximate 3.44-acre site at 800 Wall Street (Tax Key 1105997) to the Rm-3 Multiple-Family Residential District from the I-1 Institutional District, consistent with recent amendments to the Zoning Ordinance

establishing the Rm-3 District as the appropriate district for the existing community-based residential facility (CBRF) and residential care apartment complex (RCAC) use.

This ordinance proposes to rezone the Heritage Elm Grove Senior Living Facility (The Heritage) from the I-1 District to the Rm-3 District. The Rm-3 District was established via Ordinance 2026-02 on February 24, 2026. Ordinance 2026-01, approved on the same date, amended the I-1 Ordinance removing CBRFs and RCACs from the District. Approval of this Ordinance would ensure that the Heritage is a permitted use, albeit in its own district.

Action Requested: Motion to recommend approval or denial of Ordinance 2026-05 to the Board of Trustees.

PLAN COMMISSION MEETING MINUTES

- Mr. Cashin
- Mr. Fronberry
- Ms. Peter
- Ms. Stuckert
- Mr. Termuehlen (arrived at 5:02 p.m.)

Also Present:

2. Review and act on meeting minutes dated December 1, 2025

Mr. Cashin made a motion to approve the minutes. Ms. Becker seconded. Motion passed 7-0.

3. Interview Consultants for Integrated Comprehensive and Downtown Master Plan

President Koleski stated that the Commission, as previously discussed, will be interviewing the three finalists this evening. Each consultant will have 20 minutes for their presentation, followed by a question-and-answer session

with the Commission. Each commissioner is encouraged to ask one question per interview.

Studio gwa / Redevelopment Resources

Represented by Kristen Fish-Peterson and Dayna Sarver of Redevelopment Resources and Ashley Sarver, Aaron Halvorsen, and Michael Smith of Studio gwa, the consultant delivered a timed 20-minute presentation to the Commission.

Ms. Peter asked if the two consultant firms work together often. Fish-Peterson and A. Sarver stated that they frequently work together on projects similar to Elm Grove's, but also complete projects individually.

Mr. Fronberry asked how the project team would recommend the Village encourage preferred redevelopment downtown understanding that a certain property owner within the downtown is unwilling to engage. [The project team responded, however, the recording and staff notes did not pick up their response]

Ms. Stuckert stated that public survey issued as part of the 2019 downtown planning effort asked residents what amenities and types of development they would like to see. However, some of the answers ended up including lengthy, unrealistic wish lists of items without an understanding of their market feasibility. Stuckert asked how the project team would ask the right questions so as not to repeat the past. [The project team responded, however, the recording and staff notes did not pick up their response]

Mr. Termuehlen stated that Elm Grove is largely built out, emphasizing the importance of engaging with property owners within the downtown to achieve community goals. Termuehlen asked what strategies the project team would suggest in aligning downtown property owners with the Village's vision, particularly if they don't share in that vision. [The project team responded, however, the recording and staff notes did not pick up their response].

Ms. Becker asked how they have handled individuals who are resistant to redevelopment or the project at-large in past work. Fish-Peterson stated that they have used a PR firm in the past for a particularly controversial project, using a "diffuse and enthuse" strategy to address negative voices while also ensuring they feel included in the project. A. Sarver stated that, in these situations, it is also incumbent upon the consultant to adjust plan concepts if the community is unsupportive of it.

Mr. Cashin asked what they thought is unique about Elm Grove. Additionally, Cashin asked where there are areas of growth for the Village. A. Sarver stated that Elm Grove's natural beauty and old growth trees are impressive. Sarver observed that a section of the Village's downtown is very walkable with nice lighting, while the section west of the tracks is less walkable and is designed to make people feel closer to the street, albeit still probably inclusive of many great businesses.

President Koleski asked if the project team has had experience in making people determine priorities in the public engagement process, specifically utilizing nominal voting/scaling techniques. Fish-Peterson stated that she has facilitated an activity utilizing Monopoly money to encourage participants to place a dollar amount on their choices. D. Sarver stated that she has found that including an open-ended "Other" question in online surveys encourages respondents to provide quantifiable anecdotal data.

RINKA / MSA

Represented by Eric Mayne of RINKA and Stephen Tremlett, Brian Wiedenfeld, and Morgan Shapiro of MSA, the consultant delivered a timed 20-minute presentation to the Commission.

Mr. Fronberry asked if the project team has worked together previously. Mayne stated that the two firms have not worked together in the past. Fronberry also asked how the project team handles change throughout a planning process. Tremlett stated that it is about listening to property owners and constituents and hearing what their direction is to identify strategies to help the community thrive.

Ms. Becker stated that the visuals provided in the proposal and presentation are lovely, emphasizing branding is an important aspect of a successful plan. Becker shared her concern that the two consultants have not worked together in the past, asking how responsibilities would be divided amongst both groups. Mayne responded that RINKA would be primarily responsible for the downtown plan, with MSA leading the comprehensive plan. Becker asserted the importance that the downtown plan be naturally embedded within the overall comprehensive plan. Mayne stated that it is to the Village's benefit having two teams of experts working on this project. Mayne stated that the comprehensive plan will launch earlier, particularly to gather important data. However, Mayne ensured that the two plans will be on parallel tracks. Tremlett emphasized the importance of the project work group, described in detail in the proposal, which will ensure both plans are working in concert.

Mr. Cashin asked if the project team has had any initial thoughts on improving pedestrian and vehicular traffic flow in the downtown. Mayne stated that the Daylighting project will create a buffer along the tracks for improved traffic flow opportunities.

Ms. Peter asked Mayne how he would answer the question, "what would you do with Elm Grove next?" Mayne stated that there could be more placemaking-type destinations within the downtown.

Mr. Termuehlen stated that Elm Grove is largely built out, emphasizing the importance of engaging with property owners within the downtown to achieve community goals. Termuehlen asked what strategies the project team would suggest in aligning downtown property owners with the Village's vision, particularly if they don't share in that vision. Mayne stated that aligning with existing landowners in an effort to help them better understand the benefits to their interests in addition to community benefits is important. Tremlett stated that identifying low-hanging fruit opportunities for redevelopment or enhancement of the downtown is important at the outset to gather buy-in from surrounding property owners.

Ms. Stuckert stated that public survey issued as part of the 2019 downtown planning effort asked residents what amenities and types of development they would like to see. However, some of the answers ended up including lengthy, unrealistic wish lists of items without an understanding of their market feasibility. Stuckert asked how the project team would ask the right questions so as not to repeat the past. Shapiro, who would be responsible for developing the survey questions, stated that achieving a more holistic understanding of what residents love about Elm Grove is important. Understanding why residents choose to live in the community, what they think about the schools, parks, and other community resources is important in informing their preferences on economic development within the downtown.

President Koleski asked how the project team would look at the downtown from massing standpoint; what have other communities of Elm Grove's size done to retain, attract, and repurpose? Tremlett stated that it is important to identify a small, but catalytic site to reinvigorate the downtown. Tremlett stated that the Village should also continue to invest in the downtown, including in pathways or sidewalks to make it more walkable.

Vandewalle & Associates

Represented by Jackie Minch, Meredith Perks, and Jeff Maloney, the consultant delivered a timed 20-minute presentation to the Commission.

Ms. Peter asked if the project team has any ideas or suggestions for parking within the downtown. Minch emphasized the importance of on-street parking policies, specifically including time limits. Additionally, encouraging joint parking within the downtown is another strategy.

Mr. Termuehlen stated that many property owners within the downtown have their own parking arrangements with nearby properties, but that there is not always a rhyme-or-reason to it when viewing the downtown as a whole. Termuehlen asked how the project team would suggest engaging with property owners to address this issue. Maloney suggested some sort of Village participation in reviewing the right-of-way to evaluate on-street parking opportunities. Maloney also suggested providing some restriping design recommendations to property owners to help them see the benefits of different arrangements.

Ms. Stuckert stated that public survey issued as part of the 2019 downtown planning effort asked residents what amenities and types of development they would like to see. However, some of the answers ended up including lengthy, unrealistic wish lists of items without an understanding of their market feasibility. Stuckert asked how the project team would ask the right questions so as not to repeat the past. Maloney stated that survey questions should be framed to help residents understand that their desires for the downtown may require certain types of other development to be realistic.

Mr. Fronberry, recalling Vandewalle's walkthrough of the Village's downtown area as part of the 2024-25 CORP project, asked if the project team had any suggestions for potential improvements along Watertown Plank Road. Fronberry emphasized that the project team should be familiar with the downtown area, particularly if the team includes the same individuals that were involved in the CORP. Maloney stated that pedestrian walkway/pathway improvements to the downtown would be helpful. Maloney stated that, ultimately, it would depend on how aggressive the Village wants to be in pursuing development/redevelopment.

Ms. Becker asked how the project team handles opposition to elements of proposed plans in an effort to preserve public trust in the process. Minch stated that, ultimately, the plan is the Village's, not Vandewalle's. Maloney stated that you have to take extra care with people and talk to them about plan elements facing opposition, ensuring everyone is on the same page as to its meaning. Maloney stated that, sometimes, misunderstandings are what

creates opposition. Minch stated that they are also not afraid to scale back recommendations while ensuring key plan elements that are important to the community remain.

Mr. Cashin stated that he like their comment of approaching the downtown plan as a refresh or refresh-plus. Cashin asked them to elaborate on how this may apply to Elm Grove. Minch stated that identifying uses that the community would like to attract downtown and what the appetite is for downtown gathering spaces/plazas and providing renderings/visuals of proposed examples. Maloney suggested that an inventory of existing buildings may be helpful to identify opportunities for adaptive reuse, redevelopment and other improvements.

President Koleski stated that he is a very visual person and asked how the project team plans to help the community visualize what is being proposed as part of this planning process. Maloney stated that most of the visuals Vandewalle creates are drawn by hand at a sketch level. This is done purposefully so as not to get the community stuck on specific design details such as facade materials and colors, etc. However, Maloney stressed the importance that visuals identify preferred height, massing, building location, building orientation, and parking.

President Koleski asked how the project team plans to manage those opposed to the project or the "loud voices." Maloney stated that having side conversations with those individuals is important, communicating to them that the purpose of the plan is to communicate to the development community what is acceptable to the Elm Grove community. This is the opportunity to express the community's vision, not as much as when an active development proposal is being considered.

Review of Proposals

President Koleski asked if Trustee Olson, who was in the audience, would like to share his thoughts on the interviews. Olson responded to the concerns surrounding RINKA and MSA's lack of experience working together in the past, recalling his own personal experience in responding to these types of RFPs. Olson stated that choosing the most strategic partner to complete the project at hand is the way these consultants approach collaboration; they are not as concerned about not having worked together in the past.

Olson thought all three consultants did a good job interviewing this evening and that he thought the Vandewalle team did the best job of tailoring their proposal and presentation to Elm Grove.

President Koleski asked if Trustee Schindler, who was in the audience via Zoom during the presentation, would like to share his thoughts. Schindler thought that all consultants interviewed well, but that Studio gwa stuck out the most to him.

President Koleski asked if the Commissioners had thoughts on which consultant they would like to recommend to the Board of Trustees.

Ms. Peter stated that she is particularly sensitive to the Village's working relationship with Vandewalle, having completed the CORP in 2025. However, Peter stated that each firm is well qualified to complete the project. Mr. Termuehlen agreed.

Ms. Stuckert agreed that all three consultants are well qualified to complete the project; however, she would prefer the Village select Studio gwa. Stuckert added that, while Studio gwa is her first choice, she would still support Vandewalle to complete the project if the majority of the Commission supports them.

President Koleski expressed some concern on Vandewalle's distinction between the CORP and the comprehensive and downtown master plan. Koleski emphasized that the downtown plan is the truly important element to this effort.

Ms. Becker agreed that all three consultants presented well and that the margins between each are thin. However, Becker still rated Vandewalle the highest.

Mr. Fronberry stated his concern with the pairing of RINKA / MSA due to their lack of experience working together. Additionally, Fronberry stated that he prefers Vandewalle to complete the project. Fronberry appreciated their recent experience completing the CORP for the Village in 2024-2025.

Mr. Cashin made a motion to recommend the selection of Vandewalle & Associates to complete the Integrated Comprehensive and Downtown Master Plan with the Village to the Board of Trustees. Ms. Peter seconded. Motion passed 7-0.

4. Other Business.

None.

5. Adjournment.

Mr. Cashin made a motion to adjourn. Mr. Fronberry seconded. Meeting adjourned at 8:39 p.m.

PLAN COMMISSION MEETING MINUTES

13600 Juneau Boulevard, Elm Grove, WI 53122

2/2/2026 - Minutes

1. Roll Call

President Koleski called the meeting to order at 6:00 p.m.

Present:

- President Koleski (virtual)
- Ms. Becker
- Mr. Cashin
- Mr. Fronberry
- Ms. Peter
- Ms. Stuckert
- Mr. Termuehlen

Absent:

- None

Also in Attendance:

- Tom Harrigan, Village Manager
- Ethan Sowl, Assistant Village Manager
- Hector de la Mora, Village Attorney

President Koleski confirmed with Village staff if the meeting is being recorded, noting that the January meeting recording was inaudible based on the draft meeting minutes. Manager Harrigan stated that this meeting is being recorded and that the issue experienced at the last meeting has been rectified with Village IT personnel.

2. Review and Act on Meeting Minutes Dated January 5, 2026

Ms. Becker identified the following edits to the meeting minutes:

- Page two: removal of the duplicate phrase "the importance" under the RINKA / MSA interview.
- Page three: Misspelling of the word "restripping" under the Vandewalle interview.

Mr. Fronberry stated that he is uncomfortable approving the minutes as they are incomplete. Fronberry suggested that staff review the meeting recording and fill-in missing questions from commissioners based on responses provided by the interviewees, if audible. Assistant Village Manager Sowl stated that the minutes were completed based on detailed staff notes as the audio recording was largely inaudible. In that case, Fronberry suggested the

minutes be tabled so he can meet with staff to modify the minutes to reflect his comments. Manager Harrigan stated that this could be accommodated.

Ms. Stuckert stated that, under the "Review of Proposals" section, she stated she would support Vandewalle if the majority of the Commission preferred although Studio gwa was her first choice.

President Koleski stated that, although the Commission recommended Vandewalle be selected, the comments from commissioners seem overly negative in the minutes.

3. Review and Act on a Plan of Operation for Magnificent Top Notch Cleaning LLC, 910 Elm Grove Rd #32

Assistant Village Manager Sowl stated that Magnificent Top Notch Cleaning seeks to operate a residential cleaning company at 910 Elm Grove Road. The operation would be considered a permitted use (Business Office/Janitorial Supplies) in the B-1 Local Business District.

President Koleski asked if there were any comments from commissioners. Mr. Termuehlen asked if staff knew what business was in the unit previously. Staff was unaware of this.

Mr. Fronberry made a motion to approve the plan of operation for Magnificent Top Notch Cleaning LLC. Mr. Cashin seconded. Motion passed 7-0.

4. Review and Act on a Plan of Operation for Block Legal Services LLC, 13545 Watertown Plank Rd #7

Assistant Village Manager Sowl stated that William Block seeks to operate his law office out of 13545 Watertown Plank Road. The operation would be considered a permitted use (Professional Office) in the B-3 Mid-Rise Business District.

Will Block stated that he has been practicing for 10 years now out an office on 124th Street in Wauwatosa. Mr. Fronberry asked if they intend on installing a sign on the building. Mr. Block stated that they do plan on installing a sign. Assistant Village Manager Sowl stated that they will need to file a permit and receive Building Board approval prior to installation.

Mr. Fronberry made a motion to approve the plan of operation for Block Legal Services. Ms. Peter seconded. Motion passed 7-0.

5. Public Hearing, Review and Act on an Ordinance Amending § 335-26. I-1 Institutional District of the Village of Elm Grove Code of Ordinances

Assistant Village Manager Sowl stated that this and the following ordinance are the result of work completed by various boards and committees, including the Plan Commission, since the beginning of 2025. First, the Board of Trustees remanded review of the Village's I-1 Institutional District ordinance to the Legislative Committee on May 27, 2025. Then, over the course of several Legislative Committee meetings, the existing permitted and conditional uses were reviewed, and determinations were made as to if they are still relevant and/or appropriate for the Village. The Plan Commission then reviewed a draft revised I-1 ordinance and discussed removing community-based residential facilities (CBRFs) and residential care apartment complexes (RCACs) from the conditional use section at the request of the Legislative Committee. The only property in the I-1 District that falls into the CBRF/RCAC category is the Heritage Elm Grove Senior Living facility at 800 Wall Street. The ordinance was remanded back to the Legislative Committee for further review. Then, the Legislative Committee reviewed draft ordinances striking all mention of CBRFs and RCACs from the I-1 ordinance and establishing a new zoning district, Rm-3 Multi-Family Residential, to ensure the Heritage facility remains a permitted use (albeit in a new zoning district).

Sowl stated that this first item is to approve amendments to the I-1 ordinance striking all mention of CBRFs and RCACs. The following action on the agenda will recommend approval of establishing the Rm-3 ordinance.

President Koleski asked if this amendment to the I-1 ordinance would impact any property's zoning designation. Sowl stated that the only property impacted would be the Heritage at 800 Wall Street which, if the Board of Trustees approves both this and the following ordinance at their February meeting, would render the property as existing legal nonconforming. While this has no negative impact on the use of the property currently, the plan is for the Commission to take action to recommend rezoning of the property from I-1 to Rm-3 at their March meeting.

This is not being done at this meeting to provide the Heritage with due process to consider these potential amendments.

President Koleski opened a public hearing regarding the amendments to the I-1 ordinance. Observing no public comment, President Koleski closed the public hearing.

Ms. Stuckert stated that the intent of these amendments is to prevent CBRF and RCAC facilities from locating on existing I-1 zoned properties within the Village, citing that it may be difficult for Village EMS and public safety operations to support additional large facilities. President Koleski stated that, while the Village is not inherently opposed to CBRF and RCAC facilities, the goal is to ensure that any proposed change in use would have to request it from the Board first as opposed to being able to do by-right or as a conditional use under current I-1 zoning, whereby any Village input and consideration would be limited.

Mr. Fronberry asked if the Heritage would be without a zoning designation if this and the following ordinance are approved. Attorney de la Mora stated that the property would be a legal nonconforming use until the Village takes action to formally rezone the property. Attorney de la Mora added that a legal nonconforming use assures them of the same rights that they have currently under the I-1 district.

Ms. Stuckert made a motion to recommend approval of an ordinance amending 335-26 I-1 Institutional District. Mr. Cashin seconded. Motion passed 7-0.

6. Public Hearing, Review and Act on an Ordinance Creating § 335-21.2 Rm-3 Multiple-Family Residential District of the Elm Grove Code of Ordinances Accommodating Community-based residential facilities (CBRFs) and Residential Care or Assisted Living for Eligible Residents

President Koleski opened a public hearing regarding an ordinance creating the Rm-3 multiple-family residential district. Observing no public comment, President Koleski closed the public hearing.

Assistant Village Manager Sowl stated that this ordinance would create the Rm-3 district, allowing for CBRFs and RCACs as a permitted use. The goal is for the Commission to take action at a future meeting recommending the Heritage property be rezoned to Rm-3.

Mr. Fronberry asked if property owners have been notified of these potential ordinance amendments and if it impacts the way they are able to use their properties. Manager Harrigan stated that existing I-1 properties have been notified of both this meeting and the Board of Trustees meeting at the end of the month where final action will take place. Additionally, Harrigan stated that the amendments removing CBRFs and RCACs from the I-1 ordinance would prevent properties with that zoning designation from converting their properties to such facilities in the future. Ms. Stuckert added that the purpose behind creating the Rm-3 district is ensure the Heritage facility remains a permitted use in its own district given proposed modifications to the I-1 ordinance. President Koleski stated that I-1 properties have been aware of these potential changes since the beginning of last year when updates to the future land use map occurred.

Ms. Stuckert made a motion to recommend approval of an ordinance creating 335-21.2 Rm-3 Multiple-Family Residential District. Mr. Fronberry seconded. Motion passed 7-0.

7. Other Business.

President Koleski asked for a status report on the single-family home reviews adjacent to the Caroline Heights Apartments. Assistant Village Manager Sowl stated that 4-5 homes have yet to come before the Building Board. Koleski also asked if there is another buildable lot north of the northernmost lot currently being built on Stephen Place at the intersection of Watertown Plank Road. Manager Harrigan stated that there is another buildable lot there but that it has not been submitted yet.

8. Adjournment.

Mr. Fronberry made a motion to adjourn. Mr. Cashin seconded. Meeting adjourned at 6:34 p.m.

TEMPORARY EROSION CONTROL MEASURES TO BE INSTALLED UPON COMPLETION OF ROUGH GRADING AND AS NECESSARY THROUGHOUT CONSTRUCTION.
- UTILITY INSTALLATION** ALL PRIOR EROSION CONTROL MEASURES INSTALLED ABOVE TO BE MAINTAINED AS NECESSARY DURING UTILITY INSTALLATION. STORM STRUCTURE INLET PROTECTION SHALL BE INSTALLED AS STORM DRAINAGE SYSTEM IS CONSTRUCTED.
- PAVING** ALL PRIOR EROSION CONTROL MEASURES INSTALLED ABOVE TO BE MAINTAINED AS NECESSARY DURING PAVING AND THROUGHOUT THE REMAINDER OF THE PROJECT.
- FINAL GRADING/SOIL STABILIZATION/LANDSCAPING** ALL TEMPORARY EROSION CONTROL MEASURES TO BE REMOVED AT THE CONCLUSION OF THE PROJECT AS DIRECTED BY THE LOCAL MUNICIPALITY.

NOTE: THE SEQUENCE OF CONSTRUCTION SHOWN ABOVE IS A GENERAL OVERVIEW AND IS INTENDED TO CONVEY THE GENERAL CONCEPTS OF THE EROSION CONTROL DESIGN AND SHOULD NOT BE RELIED UPON FOR CONSTRUCTION PURPOSES. THE CONTRACTOR IS SOLELY RESPONSIBLE FOR DETAILED PHASING AND CONSTRUCTION SEQUENCING NECESSARY TO CONSTRUCT THE PROPOSED IMPROVEMENTS INCLUDED IN THESE PLANS. THE CONTRACTOR SHALL NOTIFY ENGINEER IN WRITING IMMEDIATELY, PRIOR TO AND/OR DURING CONSTRUCTION IF ANY ADDITIONAL INFORMATION ON THE CONSTRUCTION SEQUENCE IS NECESSARY. CONTRACTOR IS SOLELY RESPONSIBLE FOR COMPLYING WITH THE REQUIREMENTS OF THE AUTHORITY HAVING JURISDICTION AND ALL OTHER APPLICABLE LAWS.

EROSION CONTROL NOTES

- CONSTRUCTION ENTRANCE SHALL BE LOCATED SO AS TO PROVIDE THE LEAST AMOUNT OF DISTURBANCE TO THE FLOW OF TRAFFIC IN AND OUT OF THE SITE. ADDITIONALLY, CONSTRUCTION ENTRANCE SHALL BE LOCATED TO COINCIDE WITH THE PHASING OF THE PAVEMENT REPLACEMENT.
- POST CONSTRUCTION STORM WATER POLLUTION CONTROL MEASURES INCLUDE STABILIZATION BY PERMANENT PAVING, DRAINAGE SYSTEM STRUCTURE, OR LANDSCAPING.
- TEMPORARY AND PERMANENT STABILIZATION PRACTICES AND BMP'S SHALL BE INSTALLED AT THE EARLIEST POSSIBLE TIME DURING THE CONSTRUCTION SEQUENCE. AS AN EXAMPLE, PERIMETER SILT FENCE SHALL BE INSTALLED BEFORE COMMENCEMENT OF ANY GRADING ACTIVITIES. OTHER BMP'S SHALL BE INSTALLED AS SOON AS PRACTICABLE AND SHALL BE MAINTAINED UNTIL FINAL SITE STABILIZATION IS ATTAINED. CONTRACTOR SHALL ALSO REFERENCE CIVIL AND LANDSCAPE PLANS SINCE PERMANENT STABILIZATION IS PROVIDED BY LANDSCAPING, THE BUILDING(S), AND SITE PAVING.
- BMP'S HAVE BEEN LOCATED AS INDICATED ON THIS PLAN IN ACCORDANCE WITH GENERALLY ACCEPTED ENGINEERING PRACTICES IN ORDER TO MINIMIZE SEDIMENT TRANSFER. FOR EXAMPLE: SILT FENCES LOCATED AT TOE OF SLOPE AND INLET PROTECTION FOR INLETS RECEIVING SEDIMENT FROM SITE RUN-OFF.
- THE PLACEMENT OF EROSION/SEDIMENTATION CONTROLS SHALL BE IN ACCORDANCE WITH THE APPROVED EROSION AND SEDIMENTATION CONTROL PLAN.
- ANY MAJOR VARIATION IN MATERIALS OR LOCATIONS OF CONTROLS OR FENCES FROM THOSE SHOWN ON THE APPROVED PLANS WILL REQUIRE A REVISION AND MUST BE APPROVED BY THE REVIEWING ENGINEER, ENVIRONMENTAL SPECIALIST, OR ARBORIST AS APPROPRIATE. MAJOR REVISIONS MUST BE APPROVED BY THE PLANNING AND DEVELOPMENT DEPARTMENT AND THE DRAINAGE UTILITY DEPARTMENT. MINOR CHANGES OR ADDITIONAL CONTROL MEASURES TO BE MADE AS FIELD REVISIONS TO THE EROSION AND SEDIMENTATION CONTROL PLAN MAY BE REQUIRED BY THE ENVIRONMENTAL INSPECTOR DURING THE COURSE OF CONSTRUCTION TO CORRECT CONTROL INADEQUACIES AT NO ADDITIONAL COST TO THE OWNER.
- CONTRACTOR SHALL PLACE EROSION CONTROL BLANKET (NORTH AMERICAN GREEN S150BN OR APPROVED EQUAL) ON ALL SITE AREAS WITH SLOPES GREATER THAN 4:1, AND IN THE BOTTOM AND SIDE SLOPES OF ALL SWALES.
- PRIOR TO FINAL ACCEPTANCE, HAUL ROADS AND WATERWAY CROSSINGS CONSTRUCTED FOR TEMPORARY CONTRACTOR ACCESS MUST BE REMOVED, ACCUMULATED SEDIMENT REMOVED FROM THE WATERWAY AND THE AREA RESTORED TO THE ORIGINAL GRADE AND REVEGETATED. ALL LAND CLEARING SHALL BE DISPOSED OF IN APPROVED SPOIL DISPOSAL SITES.
- PERMANENT, FINAL PLANT COVERING OR STRUCTURES SHALL BE INSTALLED PRIOR TO FINAL ACCEPTANCE.
- ALL CONTROL DEVICES THAT FUNCTION SIMILARLY TO SILT FENCE OR FIBER ROLLS MUST BE REPAIRED, REPLACED OR SUPPLEMENTED WITH EFFECTIVE CONTROLS WHEN THEY BECOME NONFUNCTIONAL OR THE SEDIMENT REACHES ONE-THIRD THE HEIGHT OF THE DEVICE. THESE REPAIRS MUST BE MADE WITHIN 24 HOURS OF THE RAINFALL EVENT OR AS SOON AS FIELD CONDITIONS ALLOW ACCESS.
- ALL SEDIMENT DELTAS AND DEPOSITS MUST BE REMOVED FROM SURFACE WATERS, DRAINAGE WAYS, CATCH BASINS AND OTHER DRAINAGE SYSTEMS. ALL AREAS WHERE SEDIMENT REMOVAL RESULTED IN EXPOSED SOIL MUST BE RESTABILIZED. THE REMOVAL AND STABILIZATION MUST TAKE PLACE IMMEDIATELY, BUT NO MORE THAN 7 DAYS AFTER THE RAINFALL EVENT UNLESS PRECLUDED BY LEGAL, REGULATORY, OR PHYSICAL ACCESS CONSTRAINTS. ALL REASONABLE EFFORTS MUST BE USED TO OBTAIN ACCESS. ONCE ACCESS IS OBTAINED, REMOVAL AND STABILIZATION MUST TAKE PLACE IMMEDIATELY, BUT NO MORE THAN 7 DAYS LATER. CONTRACTOR IS RESPONSIBLE FOR CONTRACTING ALL APPROPRIATE AUTHORITIES AND RECEIVING THE APPLICABLE PERMITS PRIOR TO CONDUCTING ANY WORK.
- ACCUMULATIONS OF TRACKED AND DEPOSITED SEDIMENT MUST BE REMOVED FROM OFF-SITE PAVED SURFACES WITHIN 24 HOURS OR SOONER IF REQUIRED. SEDIMENT TRACKING MUST BE MINIMIZED BY THE APPROPRIATE MANAGEMENT PRACTICE, LIKE A DEDICATED SITE EXIT WITH AN AGGREGATE SURFACE OR DESIGNATED OFFSITE PARKING AREA. CONTRACTOR IS RESPONSIBLE FOR STREET SWEEPING AND/OR SCRAPPING IF YOUR PRACTICES ARE NOT ADEQUATE TO PREVENT SEDIMENT FROM BEING TRACKED FROM THE SITE.
- SURFACE WATERS, DRAINAGE DITCHES AND CONVEYANCE SYSTEMS MUST BE INSPECTED FOR SEDIMENT DEPOSITS.
- THE CONTRACTOR SHALL INSTALL AND MAINTAIN ALL EROSION CONTROL MEASURES AS INDICATED ON THIS SHEET IN ACCORDANCE WITH THE STORMWATER POLLUTION PREVENTION PLAN (SWPPP) PREPARED BY KIMLEY-HORN AND ASSOCIATES, INC. THE CONTRACTOR IS RESPONSIBLE FOR IMPLEMENTING THE PROVISIONS INDICATED IN THE SWPPP, INCLUDING EROSION CONTROL MEASURES AND INSPECTION FREQUENCY, AS REQUIRED BY THE WISDR NPDES PHASE II PERMIT PROGRAM REQUIREMENTS.
- PUMPING SEDIMENT LADEN WATER INTO ANY STORMWATER FACILITY THAT IS NOT DESIGNATED TO BE A SEDIMENT TRAP, DRAINAGEWAY, OR OFFSITE AREA EITHER DIRECTLY OR INDIRECTLY WITHOUT FILTRATION IS PROHIBITED.
- SOIL STOCKPILES SHALL NOT BE LOCATED IN A DRAINAGEWAY, FLOOD PLAIN AREA OR A DESIGNATED BUFFER, UNLESS OTHERWISE APPROVED, UNDER SPECIFIC CONDITIONS TO BE ESTABLISHED BY THE DIRECTOR OR ADMINISTRATOR.
- STOCKPILES TO REMAIN IN PLACE FOR MORE THAN THREE DAYS SHALL BE PROVIDED WITH SESC MEASURES. MATERIAL IS TO BE HAILED OFF IMMEDIATELY AND LEGALLY IF NO STOCKPILE IS TO REMAIN IN PLACE.
- ALL TEMPORARY SESC MEASURES SHALL BE REMOVED WITHIN 30 DAYS AFTER FINAL STABILIZATION IS ACHIEVED. TRAPPED SEDIMENT AND OTHER DISTURBED SOILS RESULTING FROM TEMPORARY MEASURES SHALL BE PROPERLY DISPOSED OF PRIOR TO PERMANENT STABILIZATION.
- WATER REMOVED FROM TRAPS, BASINS, AND OTHER WATER HOLDING DEPRESSIONS OR EXCAVATIONS MUST FIRST PASS THROUGH A SEDIMENT CONTROL AND/OR FILTRATION DEVICE. WHEN DEWATERING DEVICES ARE USED, DISCHARGE LOCATIONS SHALL BE PROTECTED FROM EROSION.
- SITE STABILIZATION REQUIREMENTS ARE AS FOLLOWS:
 - WHERE THE INITIATION OF STABILIZATION MEASURE BY THE 7TH DAY AFTER CONSTRUCTION ACTIVITY TEMPORARILY OR PERMANENTLY CEASES ON A PORTION OF THE SITE IS PRECLUDED BY SNOW COVER, STABILIZATION MEASURE SHALL BE INITIATED AS SOON AS PRACTICABLE.
 - WHERE CONSTRUCTION ACTIVITY WILL RESUME ON A PORTION OF THE SITE WITHIN 14 DAYS FROM WHEN ACTIVITIES CEASED, (E.G. THE TOTAL TIME PERIOD THAT CONSTRUCTION ACTIVITY IS TEMPORARILY CEASED IS LESS THAN 14 DAYS) THEN STABILIZATION MEASURES DO NOT HAVE TO BE INITIATED ON THAT PORTION OF THE SITE BY THE 7TH DAY AFTER CONSTRUCTION ACTIVITY TEMPORARILY CEASED.

General Notes:

- Design is based on a 150 mph, 3 second gust wind design per Florida Building Code 8th Ed. (2023), Category II, Exposure C.
- Caisson foundation is based on a presumptive safe lateral soil bearing pressure minimum of 150 psf per foot of depth. Isolated lateral bearing footings subject to short-term lateral loads and not adversely affected by a 1/2" motion at grade are permitted to be designed using twice the tabulated value of the corresponding soil class.
- A soil report was not provided. Foundation analysis assumes Soil Classification 4. Allowable bearing pressure should be verified prior to placement of concrete. In the event that the stated requirements are not met and conditions appear deleterious, cease and secure excavation and immediately contact SPRINGFIELD SIGN.
- Foundation shall not be placed at the top of, or on the side of a slope exceeding 3:1, or adjacent to a fill slope unless re-evaluated by a competent Professional Engineer. Do not place foundation in fill.
- Concrete shall be mixed to attain a minimum 28 day compressive strength of 3000 psi.
- Steel reinforcing bars shall conform to ASTM A615, Grade 60 with deformations in accordance with ASTM A305. Welding of reinforcing bars is prohibited.
- All voids between column base plate and foundation surface shall be completely filled with high-strength, non-shrink grout.
- Anchor bolts shall meet ASTM F1554 Grade 36. Exposed surfaces shall be galvanized or coated to prevent corrosion.
- All support members shall be free from defects. Fabricated steel tube shall meet ASTM A36. Steel angle, channel and plate shall meet ASTM A36.
- Steel welds shall be made with E70xx low hydrogen electrodes by persons qualified in accordance with AWS standards within the past two years.
- All structural bolts shall conform to ASTM A325 or SAE Grade 5, and be zinc coated unless noted otherwise. When used with structural bolts, heavy hex nuts shall conform to ASTM A563, and washers shall conform to ASTM F436. Pretension all high strength bolts using the Turn-of-Nut method unless noted otherwise.
