

ELM GROVE - 2026 PATHWAYS

PROJECT OVERVIEW AND PROPOSED SCHEDULE

PATHWAY SEGMENT SELECTION

The Village has identified priority pathway segments based on safety and recreational needs. These segments are part of a 5-year plan that began in 2024. To improve efficiency and reduce impacts on residents, the Village intends to design and construct the 2026 and 2028 portions of the Highland Pathway together.

HIGHLAND PATHWAY SEGMENTS

Gebhardt Road - Victoria Circle North (2026-B)
 Victoria Circle North - Juneau Blvd (2026-A)
 Juneau Blvd - Watertown Plan Road (2028)

**Years shown in parentheses are the Village committee's originally anticipated completion date for each segment

SUMMER 2026 - PATHWAY CONSTRUCTION

All segments identified in the 2026 pathways plan will be fully designed. However, the segments chosen for construction will depend on the available budget, estimated costs, and necessary coordination efforts to complete the project.

FUTURE PATHWAY PLANS

While it may not be feasible to construct all priority pathway segments in 2026, the Village is committed to continued efforts to expand its pathway infrastructure and will continue to pursue completion of pathway segments shown and beyond.

PRELIMINARY DESIGN

SEPTEMBER 2025 - PRESENT

Initial site review, survey data collected, public engagement/coordination, preliminary plans and estimate.

ADVERTISEMENT/BID OPENING

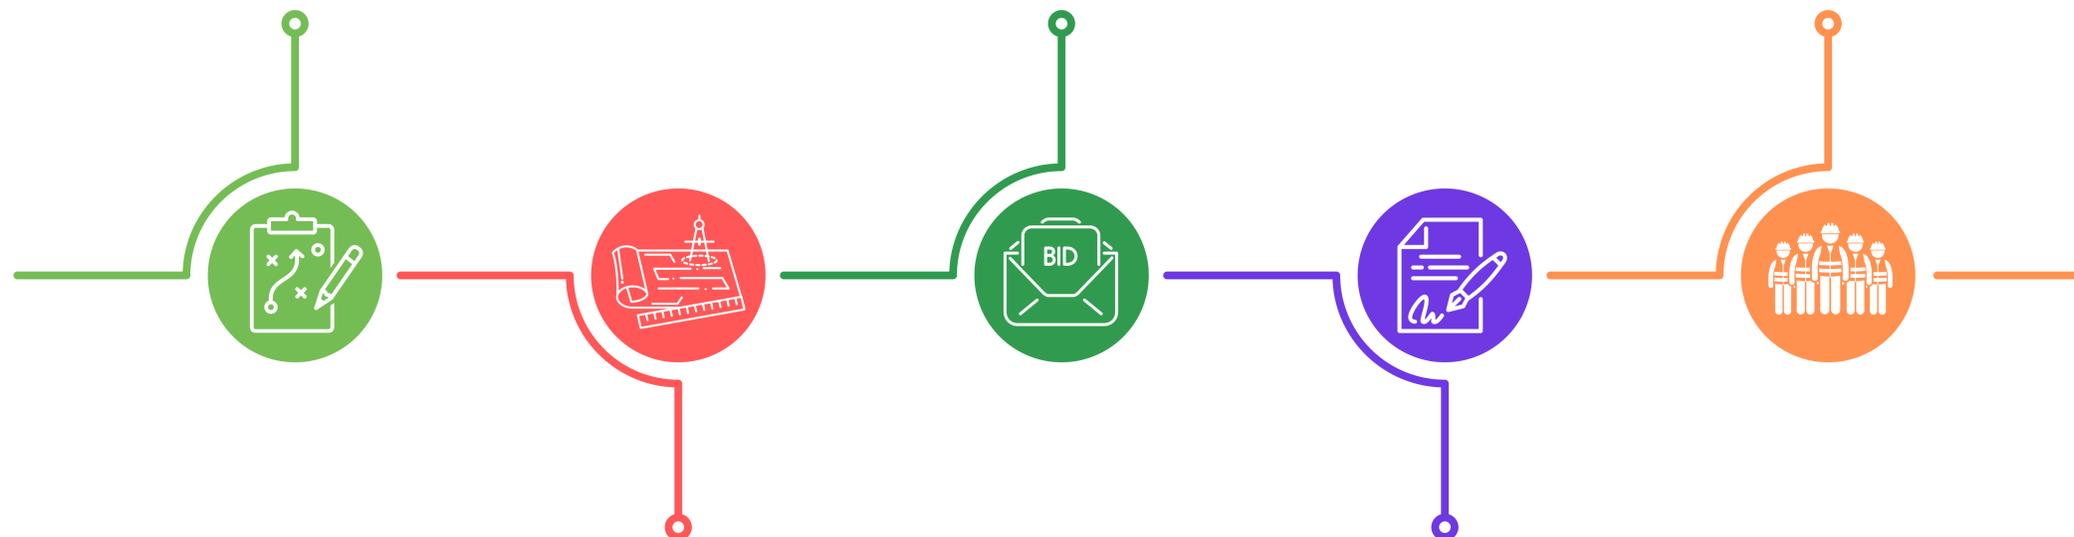

MARCH 2026

Village will advertise selected pathway segments for construction in summer of 2026.

CONSTRUCTION

JUNE 2026 - SEPTEMBER 2026

Anticipated construction period for selected pathway segments

FINAL DESIGN

DECEMBER 2025 - MARCH 2026

Complete utility and property coordination, environmental permitting and analysis, develop final plans, specifications and estimate.

CONTRACTING & PRE-CONSTRUCTION

APRIL 2026 - MAY 2026

Once project is awarded, Village works through contracting and other preconstruction submittals.

*Timeline shown is approximate and subject to change
