RE: 2020 Pavement Maintenance Budgeted projects

The Village of Elm Grove Public Works Department will require regular annual pavement maintenance applications to multiple locations within the Village of Elm Grove Village limits for the 2020 construction season.

Required work includes multiple location patching of areas identified where raveling of the surface street layer is occurring. Treatment will consist of 2" milling, clean up, tack coat and replacement with 3/8" surface HMA. Should there be a requirement to mill deeper to reach sufficient solid base, the on-site Public Works construction inspector will approve the extra milling up to 3".

In addition, crack sealing per the attached specifications will be required for the following streets:

Florence Dr – (Wisconsin Ave and south to termini cul de sac)

Legion Dr – (Watertown Plank Rd to – Juneau Blvd)

A map of the work areas and descriptions is included.

The cost of work is not to exceed \$30,000

Sincerely,

Richard Paul, Jr.
Director of Public Works
Village of Elm Grove
