Subject: Ad Hoc Committee

Dave,

Happy New Year! I hoped I would never need to write another email about the ad hoc website, yet here it is. I was reviewing the ad hoc committee website tonight. I note that there is a copy of the draft recommendations to the ad hoc committee presented on December 15.

However, contrary to my understand and the process outlined at our final committee, no final draft of our document was produced (or if produced was not posted). We were also not forwarded anything for review.

I note that Neil Palmer had the hubris to write a letter in response to summarize our "draft feedback" (date December 13, 2016 two days before we complete our work) and that is included within the correspondence page.

For clarify of record and information the village should post our final summary as reviewed and updated per our December 15th meeting. It has been over a month since our "final meeting" and I would like to know our loose ends are tied up.

Perhaps at that time it maybe more appropriate for Neil address the village, so that his letter is based on the final document produced by the committee and not a draft.

I respectfully recommend, given the significant duration since our last meeting, that updates are posted immediately. Further I request that this message is timely posted to correspondence.

Kind regards,
Christina
