

# 2026 PATHWAYS

## HIGHLAND DRIVE

### PROJECT INFORMATION MEETING

Village of  
**Elm Grove**

## PROJECT OVERVIEW

The Village of Elm Grove is planning to further expand its pathways infrastructure in 2026 with the following proposed segment:

### Highland Drive

- Gebhardt Road - Watertown Plank Road

The Village will look to combine the planned 2026 and 2028 portions of the Highland Drive pathway to capture maximum efficiencies in the design and construction process, while also limiting overall impacts to local residents.

While all path segments are planned to reach full design, the Village may select specific segments, or portions of, for construction in the 2026 season. Portions constructed in 2026 will be contingent on estimated costs and available budget.

## PUBLIC ENGAGEMENT

A public engagement meeting will be held to discuss community questions regarding proposed pathway alignments and design.

Wednesday December 10, 2025  
5:30 - 7:00 p.m.

13600 Juneau Blvd  
Elm Grove Court Room

The meeting will primarily follow an open-house format, featuring a brief presentation of the proposed pathway from 6:00 to 6:30 p.m.
