- Fire Inspector
- Assessor
- Village Clerk

Village of Elm Grove Plan of Operation Addendum and Notice of Responsibilities

In order for the Village to maintain continuity of business operations and have contact information for emergency services, a plan of operation must be approved by the Plan Commission and on file at the Village Hall prior to initiating business operation. The plan of operation is designed to ensure that important Village regulations (such as parking requirements) are consistently enforced. Businesses are not allowed to operate until the plan of operation has been reviewed and approved by the Plan Commission. A plan of operation is the joint responsibility of the business operator and the property owner and/or registered agent.

As businesses or institutions requiring a plan of operation *change the nature of business as defined in Section 335-32J*, submittal and approval of an amended plan of operation shall be required. Amended plans of operation are processed in the same manner as initial review and approval, which includes verification from the business operator and the property owner and/or registered agent as to the nature and scope of the proposed use and consultation with the Zoning and Planning Administrator.

At all times it shall be the responsibility of both the business operator and the property owner and/or registered agent to provide adequate parking facilities that are consistent with the requirements of Section 335-32 (Parking). Said responsibility includes, but is in no way limited to, the need to obtain adequate parking should any sort of joint or shared parking arrangement be terminated for any reason.
